

1.5 IS STILL ALIVE

(In Thanks and Praise for Our Mother)

So
we have reached where we are
Some say it's too late for a turning
Poison in the air, sea and land
The body of Our Mother is burning
Our children and children of our children
Look into our eyes with a question:
How could you know what you knew
And yet still you all let it happen?
Some are saying it's just too late
Total extinction is our fate
But we've not reached the end of the rope
There's a degree, a fraction, of hope

CHORUS

1.5 is still alive
1.5 – we can survive
Spread the word, we still can thrive
The way begins at 1.5

How did we reach where we are?
1% with their lies and their power
Maintaining a system of greed
Cannibalizing Our Mother
Things and more things and more things
Is how their system keeps going
Selling us what we don't need
Feeding a giant that's growing
Global matricide is what they've begun
But we're Her children - can't let it go on
Climate justice is where we start
The guilty nations must pay their part

CHORUS

1.5 is still alive
1.5 – we can survive
Spread the word, we still can thrive
The way begins at 1.5

Never have we seen it like this
Every day brings a sign and a wonder
Disasters and profits go up
People and countries go under
The order we live in must change
People must come before profit
We're greening the system for now
But sooner than later must change it
Honour The Mother, beginning and end
Fight for Her ways to guide everything
Justice and Earth-needs go hand in hand
A system that serves ALL is what we
demand

(And till then)

CHORUS

1.5 is still alive
1.5 – we can survive
Spread the word, we still can thrive
The way begins at 1.5
